

Wrapped Cardholder Wallet

**PLEASE READ THROUGH INSTRUCTIONS ONCE COMPLETELY
BEFORE STARTING**

Print out your template

Cut out the shapes

Tape the shapes down to your leather with masking tape

Cut out design

Bevel, sand, and burnish card slot tops

If using heavier leather, it is a good idea to cut a V Groove from top to bottom where your Inner Pocket will fold

Glue bottom and the outside of the Inner Pocket

Fold Inner Pocket in half and allow glue to dry

Rough the leather of the Inner Pocket where the Outer Pocket will be glued (Along the bottom and outside edge)

Glue bottom and outside edge of Outer Pocket to the Inner Pocket

Once glue is dry, sand edges to ensure they are even

Optional Step - Use a corner punch or mark a rounded edge and cut with a knife

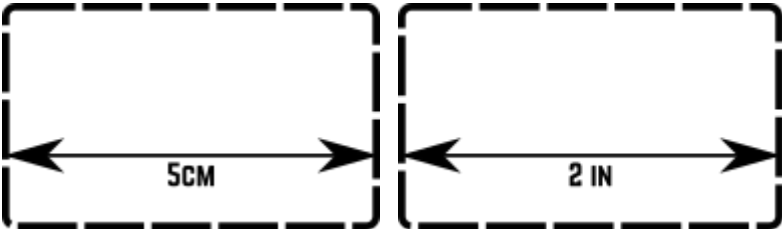

Mark stitching line with wing divider

Punch stitching holes along the outside edge and bottom

Stitch it up using the saddle stitch

Bevel, sand, and burnish all edges

When printing, make sure to print the true size. Measure below to ensure the image hasn't been scaled:

INSIDE POCKET

OUTSIDE POCKET
